

Bluebac Enhances Its Global Internet Offering by Partnering With GTT

- *UK-based provider of internet services leverages GTT's global Tier 1 IP network to support customers' global connectivity requirements*
- *Initial deployment of dedicated internet access service deployed across 14 countries in Europe and UAE*

MCLEAN, Va., October 6, 2022 — [GTT Communications Inc.](#), a leading global provider of managed network and security services to multinational organizations, announced today that it is partnering with [Bluebac](#), a UK-headquartered provider of connectivity services, to deliver managed dedicated internet access (DIA) services to customers in Europe and around the world. The initial DIA service deployment, completed in July 2022, is for a Bluebac enterprise customer for 31 sites in 14 countries: Austria, Belgium, Finland, France, Germany, Italy, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, United Arab Emirates, and the UK.

Through this partnership, Bluebac can leverage GTT's global Tier 1 IP network, which spans more than 260 cities on six continents. GTT operates its IP network with more than 240Tbps of total network capacity and connects directly to over 2,000 ISPs and cloud providers. GTT maintains access partnerships with approximately 400 preferred providers for an elite, end-to-end service experience. The company previously announced that it has commenced with a 400G upgrade of its IP network in a phased rollout that will begin with global metropolitan city locations and extend to GTT's core IP switching and routing fabric.

"Through this partnership, Bluebac's customers are able to benefit from GTT's global Tier 1 IP network," said Tom Homer, GTT Division President, Europe. "As demand for IP services continues to increase, GTT is uniquely positioned to help its partners meet their customers' requirements for high-performance and secure global internet connectivity."

Chris Ali, Bluebac Director of Services, said, "We are pleased to partner with GTT to meet the global internet connectivity requirements sought by our customers." "We look forward to serving more enterprises with the performance and reach advantages that GTT's Global Internet backbone provides."

About GTT

GTT is a managed network and security services provider for global organizations. We design and deliver solutions that leverage advanced cloud, networking, and security technologies. We complement our solutions with a suite of professional services and exceptional support teams in local markets around the world. We serve thousands of national and multinational companies with a portfolio that includes SD-WAN, security, Internet, voice, and other connectivity options. Our services are uniquely enabled by our top-ranked, global Tier 1 IP backbone that spans more than 260 cities on six continents. The company culture is built on a customer-first service experience reinforced by our commitment to operational excellence and continuous improvement in our business, environmental, social and governance practices.
